JOURNAL OF RESEARCH IN SCIENCE TEACHING

Volume 7, 1970

ISSUE 1, MARCH

The Effect on Test Results of Changes in Task and Response Format Required by Altering the Test Administration from an Individual to a Group Form: Henry H. Walbesser and Heather L. Carter.. 1

The Search for More Effective Methods of Teaching High-School Biology to Slow Learners Through Interaction Analysis. Part I. The Effects of Varying Teaching Patterns: Irvin M. Citron and Cyrus W. Barnes..... 9

The Search for More Effective Methods of Teaching High-School Biology to Slow Learners Through Interaction Analysis. Part II. The Effects of Various Constant Teaching Patterns: Irvin M. Citron and Cyrus W. Barnes..... 21

Mathematical Models of Physics for Teaching: John Niman..... 29

Effectiveness of Micro-Teaching Experiences in Elementary Science Methods Classes: William N. Harris, Verlin W. Lee, and Fred L. Pigge 31

The Influence of Set Induction upon Student Achievement and Perception of Effective Teaching: Robert F. Schuck..... 35

Pre- and Post-Sputnik Physics Background of College Freshmen-II: Haym Kruglak 41

A Scalogram Analysis of Classificatory Behavior: Leslie R. Allen.. 43

An Inductive Approach to the Study of Biology Teacher Behaviors: Thomas P. Evans and LeVon Balzer..... 47

Socio-Economic Status and Sex Differences in Visual Resemblance Sorting Tasks at the First Grade Level: Lawrence F. Lowery and Leslie R. Allen..... 57

MEETING REPORT of Conference on Science in the Two-Year College: Edward J. Kormondy..... 67

ISSUE 2, JUNE

Cultural Bias in the Attainment of Concepts of the Biological Cell by Elementary School Children: Victor Y. Billeh and Milton O. Pella 73

The Development, Field Test and Validation of an Inventory of Scientific Attitudes: Richard W. Moore and Frank X. Sutman.. 85

Strategy of Inquiry and Styles of Categorization: A Three-Year Exploratory Study: Norval Scott..... 95

Attitudes of High School Chemistry Students Toward Biology: Henry R. Weinstock and Michael W. Watters..... 103

A Practical Examination for BSCS Students: P. Tamir and I. Glassman 107

The Role of Analogy in Teaching Science: Charles M. Weller..... 113

A Leadership Workshop on Elementary School Science: An In-Depth Evaluation: Dale G. Merkle..... 121

Concepts of Science and Scientists Among College Students: R. G. E. Mitias..... 135

An Evaluation of the Attained Development of the Intellectual Skills Needed for "Understanding of the Nature of Scientific Enquiry" by B.S.C.S. Pupils in Israel: E. Jungwirth..... 141

The Effects of a Structured Learning Sequence on Second and Third Grade Children's Classification Achievement: Ronald J. Raven.. 153

The Use of Visual Advance Organizers for Learning Earth Science Concepts: Joseph S. Weinberg..... 161

Book Review 166

ISSUE 3, SEPTEMBER

Prospective Science Teachers' Preception of the Ideal Pupil: Maharaj K. Raina..... 169

Content and Skill Hierarchies in Elementary Science: An Analysis of ESS Small Things: Robert B. Nicodemus..... 173

Some Effects of Structured Science and Visual Perception Instruction Among Kindergarten Children: William C. Ritz and Ronald J. Raven 179

Anomaly-Recognition and Research in Science Education: Michael Martin 187

A Comparison of Teacher-Pupil Verbal Behaviors Evoked by Science —A Process Approach and by Textbooks: John F. Newport and Keith McNeill 191

Computer-Based Teaching Techniques in General Chemistry: S. J. Castleberry, E. J. Montague, and J. J. Lagowski..... 197

A Unified Approach to Science Teaching: R. Bruce Lindsay..... 209

Approaches to Science Education Research: Analysis and Criticism: Williard J. Jacobson..... 217

A Comparative Analysis of Structure in Teacher Communicated Science Content: O. Roger Anderson..... 227

Interim Testing with Programed Material in College General Science: William B. Shell..... 245

A Study of Varying Modes of Topical Presentation in Elementary College Biology to Determine the Effect of Advance Organizers in Knowledge Acquisition and Retention: David J. Kuhn and Joseph D. Novak..... 249

A Comparison of Individualized and Group Instruction in Science: Effects on Third Grade Pupils: James Joseph Gallagher..... 253

The Effectiveness of Stereoscopic Viewing in the Learning of Spatial Relationships in Structural Chemistry: D. G. Holford and R. F. Kempa 265

Book Reviews 271

ISSUE 4, DECEMBER

An Evaluation of Certain Cognitive Aspects of the Material Objects Unit of the Science Curriculum Improvement Study Elementary Science Program: *Leslie R. Allen*..... 277

Reactions of Pupils to Nuffield Science Teaching Project Trial Materials in England at the Ordinary Level of the General Certificate of Education: B. R. Meyer..... 283

Teachers' Opinions About the Importance of Scientific Method in English Ordinary Level Biology Courses: R. Amos..... 303

The Relationship Between the Change in Pupil Control Ideology of Student Teachers and the Student Teacher's Perception of the Cooperating Teacher's Pupil Control Ideology: Richard A. Roberts and Jacob W. Blankenship..... 315

Revision of a Science Topic Using Evidence of Performance on Subordinate Skills: James R. Okey and Robert M. Gagné..... 321

The Effects of Verbal Reward on the Behavior of Children in the Primary Grades at a Cognitive Task Typical of the New Elementary Science Curricula: Francis X. Lawlor..... 327

A Test to Measure Problem-Solving Skills in Science of Children in Grades One, Two, and Three: Maureen A. Dietz and Kenneth D. George 341

The Usefulness of Closed Circuit Television and Psycho-Galvanic Response of the Training of Student Teachers: Frank E. Carus and Lawrence F. Lowery..... 353

An Exploration of Alternative Methods for Teaching Large Sections of General Education Biology: Paul E. Bell..... 363

The Effect of Instruction on the Acquisition of Conservation of Volume: Ann C. Howe and David P. Butts..... 371

A Note on Using Curriculum Models to Analyze the Child's Concept of Weight: Paul E. Johnson and Frank B. Murray..... 377

Type of High School Biology Program and Its Effect on Student Attitude and Achievement in College Life Science: Charles R. Granger and Robert E. Yager..... 383

The Prediction of Careers in Science From High School Data: James Neujahr and Richard Hansen..... 391

Determining the Level of Inquiry in Teachers' Questions: George T. Ladd and Hans O. Andersen..... 395
